# What does Disruption mean to you?

## Examples:

- Uber, the world's largest taxi company, doesn't own any taxis
- Skype and WeChat, the world's largest phone companies, don't own any telecommunications infrastructure
- Apple and Google, the world's largest software vendors, don't write any of the apps they sell

# What is Cloud?

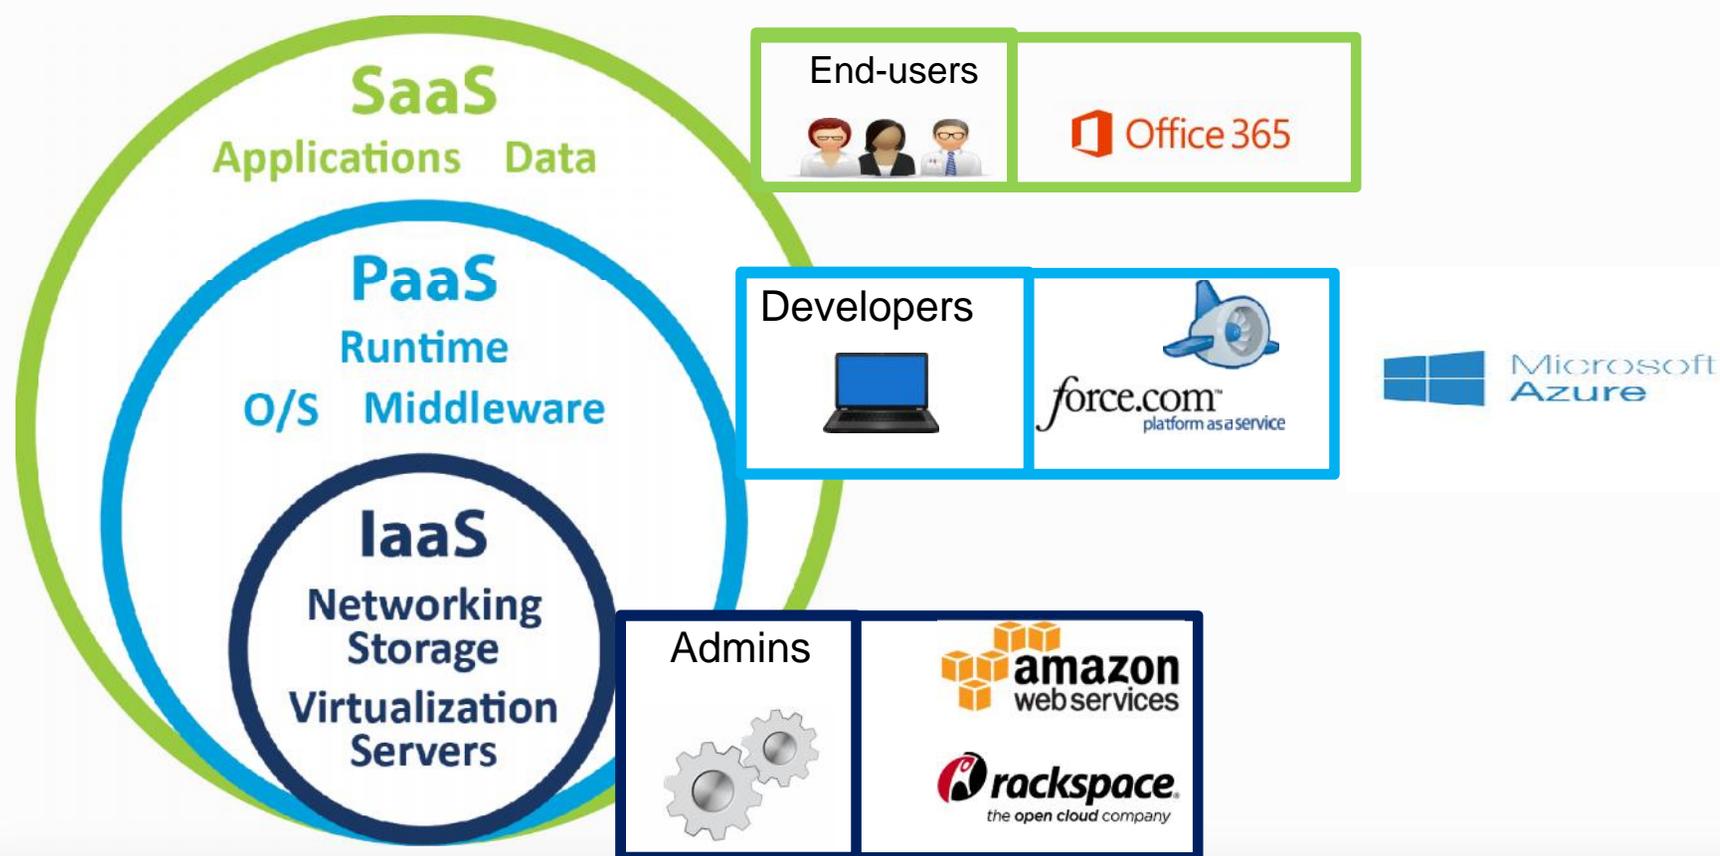

Today! You no longer need to save all your documents on one particular device. Instead, you can access your files from any terminal at any time, Thanks to "Cloud Computing.")

# Why is the Cloud up?

# Cloud Technologies & Models

# Why Use the Cloud?

## Speed

- Faster than Traditional Application Development

## Scale

- Scale out Quickly
- Provide Global Scale

## Economics

- Lower Cost

Cost of Network Provisioning

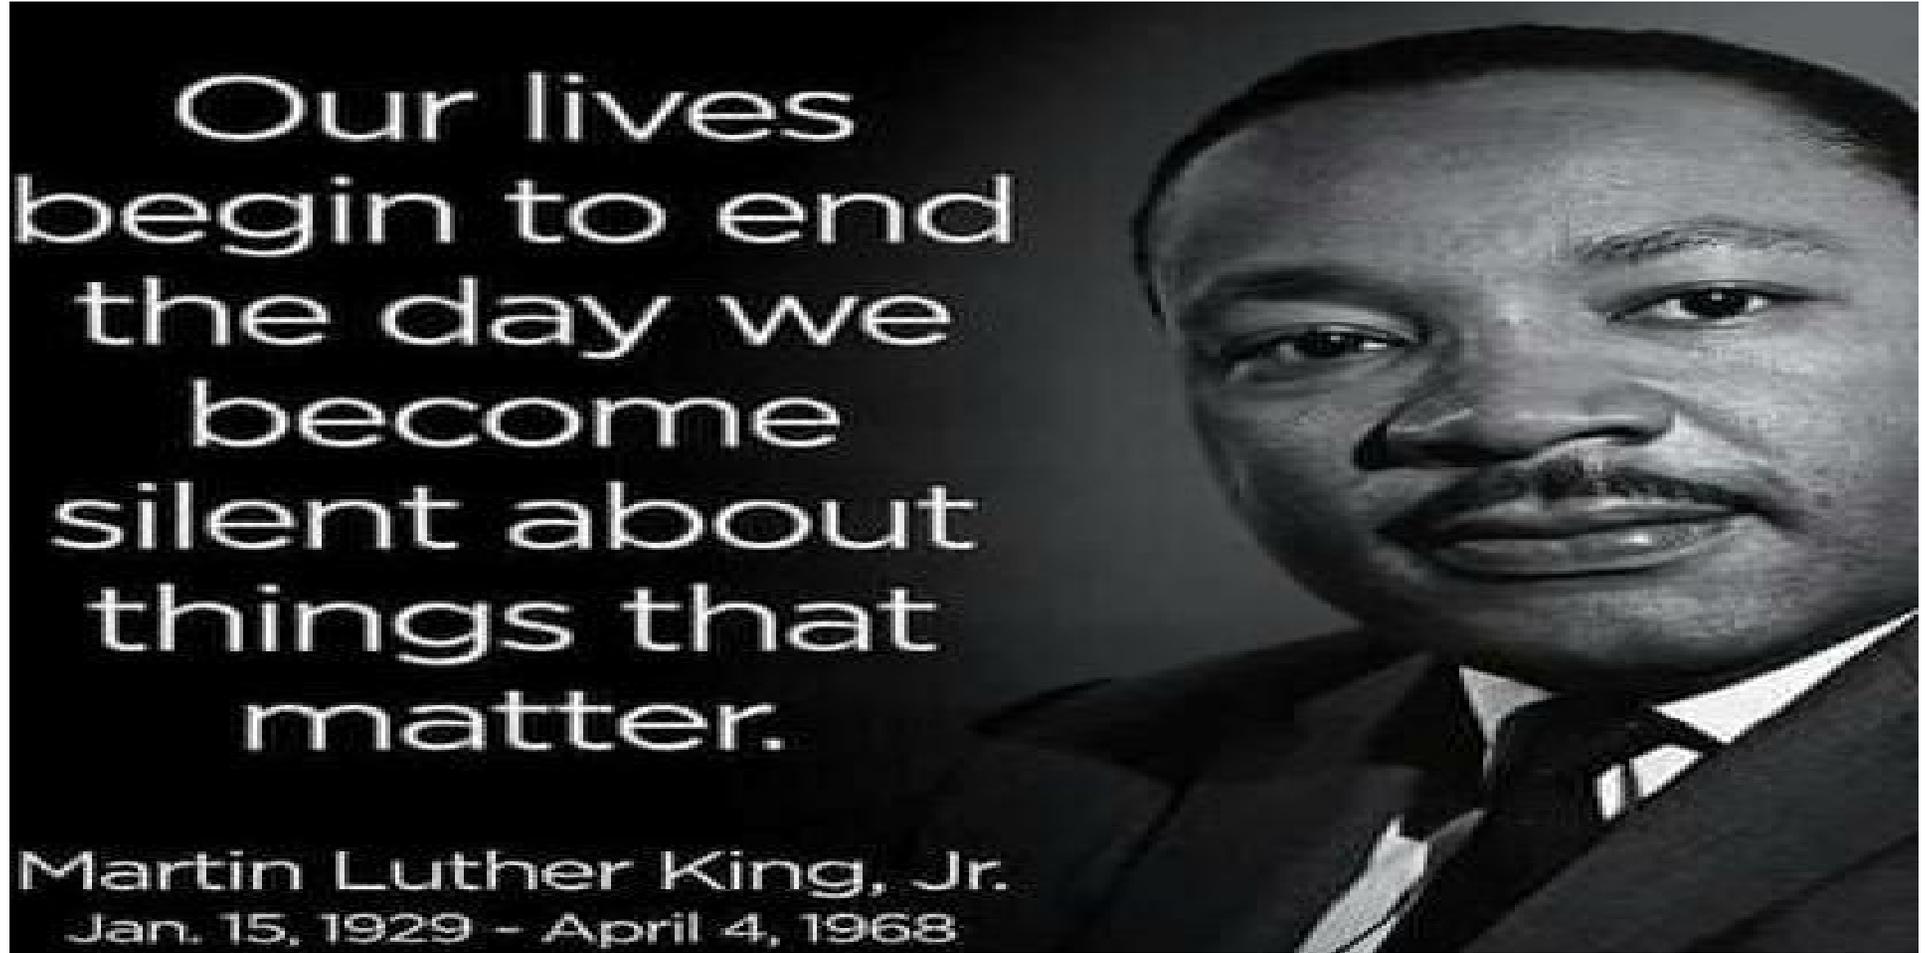

Cost of software Acquisition

# Common Cloud Computing Myths

# Cloud Technologies Opportunities

- Helps organizations save money by adding to the convenience of users
- It opens up horizons for positions such as cloud Architects, Cloud developers, cloud security, Cloud devops. etc.
- IT giants like VMware, CloudSigma, Microsoft, Amazon, Google, Salesforce provides employment opportunities to professional with cloud computing skills
- The volume of opportunities in cloud computing is very high along with the salary

Our lives  
begin to end  
the day we  
become  
silent about  
things that  
matter.

Martin Luther King, Jr.  
Jan. 15, 1929 - April 4, 1968

Time for Change
