FG URGED TO LIFT TWITTER'S SUSPENSION TO RESTORE INVESTORS' CONFIDENCE

Weighing the economic implications of the suspension of Twitter's operations in Nigeria by the federal government, the Nigeria Computer Society (NCS), has called on government to rescind its decision over the

suspension in order to restore investors' confidence and guarantee economic stability. NCS gave the advice in a communique it released recently after a meeting in Lagos.

The federal government had penultimate week, suspended the operations of Twitter in Nigeria for deleting the tweet of President Muhammadu Buhari, which he sent to address the agitators of South-east extraction.

But the NCS in a communique stated: "We appeal to the federal government to lift the suspension forthwith. This will restore investors' confidence and business growth and guarantee economic stability. The 70 per cent youth population of this country will once again have confidence in the digital economic policy being

canvassed by the present administration.

“This will also guarantee their freedom of expressions as contained in the constitution. After all, 2016 United Nations resolution affirms that the rights that citizens have offline must apply online. Coincidentally, this resolution was co-sponsored by Nigeria with others. Nigeria Computer Society is ever ready to ensure the coordination of a level playing ground of giant tech for the good welfare and wellbeing of Nigeria People.”

President of NCS, Prof. Adesina Sodiya, said Nigerian government might have taken the extreme decision based on cursory analysis of the implications. He, however, said the NCS was convinced very strongly that the negative effect of Twitter's suspension outweighed the gains in Nigeria. He described the negative effects as indeed alarming and huge, and listed them to include: Job losses, unemployment, economics woes and recession, youth restlessness and banditry, insecurity and terrorism, brain drain, loss of ideas and creativity.

He, however, said Twitter should realise that having a dominant share of 200 million people from Nigeria,

comes with a lot of caution and decorum.

Sodiya said government should also have a legal framework to register and regulate tech giants and institute a deterrent punitive measures like fines and the likes instead of suspension or outright ban. He promised that NCS would continue to work with government in promoting ethical and professional use of information technology in Nigeria.

NCS, in its communique, observed that Twitter had become the platform for young people and indeed all Nigerians to exercise their fundamental right to express and publish opinions.

“They use the platform to complain, argue and give feedback to government and its agencies who in turn, use these to improve their policies and programmes. This is a fundamental point that should be kept in mind as we debate the necessity of this suspension,” it added.

The group recommended that government should recognise and value Information Technology society like Nigeria Computer Society and always seek technological advice from the society before taking any drastic measure on any information

.....FG Urged to Lift Twitter's Suspension to Restore Investors' Confidence

Contd. from Pg 2

technology-based issue.

NCS advised Nigerians to look inward for a homegrown similar application like Twitter, adding that there is no software or platform needs of Nigerians that cannot be developed in Nigeria.

NCS has notable Information Technology (IT) experts that can deliver high tech systems for the need of this country. NCS humbly requests for government support for the development of an enviable alternative social media platforms, the communique further said. NCS further urged government and corporate organisations to continue to support and fund young innovators, Information Technology experts and technology organisations to create and develop leading technologies and

solutions that Nigerians and Nigeria can control.

A recent statement issued by the public affairs section of United States Diplomatic Mission to Nigeria had stated: "Banning social media and curbing every citizen's ability to seek, receive, and impart information undermines fundamental freedoms. As President Biden has stated, our need for individual expression, open public conversation, and accountability has never been greater. The path to a more secure Nigeria lies in more, not less communication, alongside concerted efforts toward unity, peace, and prosperity."

PROF CHARLES UWADIA HANDS OVER TO MR. KOLE JAGUN AS PRESIDENT/CHAIRMAN OF COUNCIL OF CPN

Mr. Kole Jagun has assumed office as the 10th President/Chairman of Council of Computer Professionals (Registration Council of Nigeria) [CPN].

At the Handover ceremony which took place at the CPN Centre of Excellence, Abuja, Prof Charles Uwadia congratulated Mr. Jagun and Dr. Essien on their election as President/Chairman of Council and Vice President/Vice Chairman of Council respectively.

In his acceptance speech, the President/Chairman of Council used the opportunity of the handover ceremony to thank members of the profession for the confidence reposed on him and Dr. Essien to lead the Council. He promised that the 2021-2023 Council will work at ensuring that Council achieves the much needed self sustainability.

He also said collaboration with relevant MDAs, and improved relationship with the Federal Ministry

of Education (FME), CPN's parent Ministry would be given prime attention.

Mr. Kole Jagun said the 2021-2023 Council, which he christened the Change Makers Council, would ensure that its policy direction is aligned with the visions of the Nigeria Computer Society (NCS) and those of other stakeholders so that the goals of a value-adding IT profession could be achieved.

Other dignitaries at the Oath Taking and Handover ceremony for the President/Chairman of Council and Vice President/Vice Chairman of Council included Prof Adesina Sodiya, President, Nigeria Computer Society (NCS), Prof (Mrs.) Adenike Osofisan, Provost College of Fellows, Mr. Ibrahim Tizhe, Past

President/Chairman of Council, Dr. Muhammad Sirajo Aliyu, Deputy President, Nigeria Computer Society, Engineer Gambo Abdullahi, a member of the 2019-2021 Council and member, CPN Transition Committee, Mr. Kayode Shobajo, CEO HiIT Plc, Prof Oludele Awodele, a member of the 2019-2021 Council, and member, CPN Transition Committee, Rev. Dr. Uwem Asomugha, Mr. Idowu Olusile, Director, Admin, Personnel & HR, Alhaji Ganiu Aileru, Director, Finance & Account, and Mr. Aderemi Raji-Awe, Head, Corporate Communications.

NCS KANO EXCOS VISIT TERTIARY INSTITUTIONS WITHIN KANO METROPOLIS

A delegation of the Nigeria Computer Society, Kano state chapter went on courtesy visits to 6 tertiary institutions within Kano metropolis on the 1st of July 2021.

The visits were made to introduce the society to the schools as well as seek for the registrations and participations of their staff and students especially in the annual international conference organised by the national body.

The schools visited were:

1. Skyline University Kano Campus
2. Kano state Polytechnic
3. Federal College of Education, Kano
4. Yusuf Maitama Sule University, Kano
5. Bayero University Kano
6. Sa'adatu Rimi College of Education

The delegation was given very warm receptions in all the schools visited. The Vice chancellor Skyline University promised to engage all concerned staff and students to register and participate. The Registrar Kano State Polytechnic, an existing member of

CPN, promised to also bring all his people onboard with active participation. While the provost federal college of Education, Vice chancellor Yusuf Maitama Sule University Kano, Vice chancellor Bayero University Kano and provost Sa'adatu Rimi college of Education were unavoidably absent during the visits but the letters were received by their secretaries who promised to revert as soon as they resume.

The visit calls were necessary in order to bring onboard more members as well as revive the spirits of our humble members.

Fellow professionals, we kindly seek for more dedication and sacrifice for this our baby society. Existing members that have not been active are kindly enjoined to check their membership payment status on the official website (www.ncs.org.ng).

We cannot do it without us all. we need us to come together and strengthen our dear NCS Kano state chapter

NIGERIA COMPUTER SOCIETY'S COURTESY VISIT TO THE LAGOS STATE GOVERNMENT

The Nigeria computer society paid a courtesy visit to the Lagos state government on Wednesday, 23rd June, 2021.

During the visit, the president of the Society, Prof. Adesina S. Sodiya (FNCS) after exchanging pleasantries with representatives of the State Government, articulated the reason for the visit. The president solicited for active participation of the State government in the Society's activities, especially in the upcoming events which are; NITMA and Artificial Intelligence (AI) Submit. He equally asked that all IT personnel of the Gov't should register with the Society and actively partake in the forthcoming International Conference slated for the 3rd - 5th of August 2021 at Uyo, Akwa-ibom.

The representative of the state Gov't, Mr. Wasiu Adetunji Jimoh

expressed his happiness towards the visit and commended the Society for the its relentless

effort towards carrying every member along. He assured NCS of their active Support henceforth, both towards the Society and to all Staff of the IT Department.

STAY SAFE: PROTECT YOURSELF AND THOSE AROUND YOU

THE COVID-19: WE WANT YOU TO STAY ALIVE

Dear professional colleagues, Nigeria Computer Society (NCS) as a Professional body in Nigeria are not oblivious of the pandemic ravaging the world called 'COVID-19.

We care for our members. Therefore, we wish to inform our precious and distinguished members of the need to pay utter attention to basic preventive measures against COVID-19.

Stay aware of the latest information on the COVID-19 outbreak, available on the WHO website and through your national and local public health authority. Most people who become infected experience mild illness and recover, but it can be more severe for others.

Take care of your health and protect others by:

- a. Constantly getting basic preventive measures and current updates from WHO (<https://www.who.int/emergencies/diseases/novel-coronavirus-2019/advice-for-public>). Kindly always follow the guidelines as outlined
- b. Paying attention to national and international information on COVID-19
- c. Being an health ambassador by helping to sensitise the public on preventive measures against the virus
- d. Ensuring you always take advice from healthcare professionals
- e. Taking general measures to improve your health conditions

Nigeria Computer Society (NCS) wants our members to always be strong and healthy. Together we shall continue to build strong and virile IT Profession.

Stay Alive!!!

UPDATE FROM MINISTRY OF COMMUNICATION AND DIGITAL ECONOMY

DIGITAL ECONOMY: NIGERIA HAS AN ENABLING ENVIRONMENT FOR INVESTMENT TO THRIVE

The Nigerian government says the country has an enabling regulatory environment and policies for digital economic growth.

The Minister of Communications and Digital Economy, Dr. Isa Pantami, gave the assurance at the ongoing Mobile World Congress (MWC), in Barcelona, Spain.

In a presentation titled "Accelerating Digital Transformation – A Case Study of Nigeria", he called on investors to take advantage and harness the potentials of Nigeria's digital economy sector.

Dr. Patanmi while highlighting some of the gains of digital economy in Nigeria's economic growth noted that the digital transformation journey in Nigeria has been demanding but very rewarding.

"The stakeholders and members of the ecosystem are indispensable in the drive to transform the digital landscape of any country. "Having the buy-in and support of the top leadership is critical to sustainable success.

"The support of Mr President has made a lot of difference. We are always ready to partner with sister ministries and

stakeholders" the Minister said.

Broadband penepration

On the issue of broadband penetration, he explained that one of the approaches is the prioritising of broadband penetration and increase in the number of data centers. This is captured in the Nigeria National Broadband Plan 2020-2025.

He noted that some of the challenges faced in the sector were excessive Right of Way charges and vandalism of critical national infrastructure. Dr. Patanmi also noted that after addressing these challenges "We had unprecedented growth in broadband: over 10% in just over a year, almost 60% drop in the cost of 1GB of data in just over a year. Telecommunications sub sector recorded a growth rate of 15.90% and this was its highest growth the

last 10years” he said.

On Indigenous Content Development and Adoption, the Minister affirmed that “We have created the policy environment and now have indigenous companies that are servicing the needs of Nigerians and other African countries. We also developed a policy to promote indigenous content in the Nigerian Telecom industry and it was launched by Mr. President” Pantami said.

Nigeria’s digital economy policies

Participants at the Digital Transformation Roundtable which was attended by Ministers from other African countries, DG Smart Africa and other stakeholders was inspired by Nigeria’s digital economy success. They expressed willingness to come to Nigeria for a study visit to learn more about the digital economy policies.

Dr. Pantami also held a meeting with the United States of America candidate for the

post of Secretary General of International Telecommunications Union (ITU), Mrs Doreen Bogdan-Martin.

Mrs Doreen Bogdan-Martin sought the support of Nigeria through the Minister for the next election and also discussed the Digital Transformation of Africa.

Mrs Bogdan-Martin also commended the effort of Nigeria towards implementing the National Digital Economy Policy and Strategy for a Digital Nigeria.

The Minister also met with the candidate of the Republic of Lithuania for the post of Deputy Secretary General of ITU, Mr Tomas Lamanauskas.

During the meeting, Mr Lamanauskas explained his blueprint for Africa and used the opportunity to seek the support of Nigeria through the Minister for the next election.

INTERNATIONAL CONFERENCE ON INNOVATIVE SYSTEMS FOR DIGITAL ECONOMY

3RD - 5TH AUG., 2021.

UYO, AKWA IBOM STATE.

CALL FOR PAPERS AND PARTICIPATION

PREAMBLE

The past decade has witnessed a major disruption in the way businesses are conducted globally. The digital economy is deeply changing the actions of both governments, businesses, and the citizen. Transforming a nation digitally is a daunting task that requires paradigm shift from the status quo. It is a journey that requires the right team with new mindsets and skills. At the core of digital economy is innovation. It drives growth and stabilizes the economy through a well-coordinated relationship between the interconnected businesses, consumers and machines, powerful computing technology, intelligent devices, and cyber intelligence. The international conference on **Innovative systems for Digital Economy** will provide opportunity for governments, businesses, Academia, the technical community and civil society to consider broad social, economic, and technical trends affecting the development of the digital economy and discuss policies that could respond to evolving societal demands.

SCOPE AND TOPICS

Authors are solicited to contribute to the conference by submitting articles that illustrate research results, projects, surveying works and industrial experiences that describe significant strategy in developing next generation digital economy relating to the theme and sub themes.

SUB-THEMES

- Technopreneurship: Powering Creativity
- Regulation and Digital Consumer privacy
- Inclusive vs. Disruptive Innovation
- IoT and Robotics on customer Behavior
- Globalization and its effect on a digital economy
- Digital Economy: Governance, Policy and Regulatory framework
- Cyber Intelligence for National Security
- Broadband: Citizen and Digital Access Rights
- Digital Technologies in Agriculture
- Redefining Healthcare in Digital Economy
- Education: Beyond the Wall
- Agenda for Digital Gender
- Energy efficiency (end user energy demand)
- Behavioral research (Human response to digital integration)
- Cloud and Edge computing
- Data, information, and knowledge (New frontiers for Data production, capture, and processing)
- Design and Human Computer Interaction (How modern designs are impacting usage of new technology)
- Pervasive / ubiquitous computing and social acceptance
- Social computing/interactions (Understanding social processes towards digital technologies)
- Security, privacy, and trust
