EXPERTS LIST WAYS FG CAN ACHIEVE 95 DIGITAL LITERACY BY 2030

In January 2022, the Director General of National Information Technology Development Agency (NITDA), Kashifu Inuwa, said plans were in top gear for Nigeria to achieve 95 per cent digital literacy by 2030.

Inuwa said a cocktail of initiatives, including the establishment of tech incubation centres, was in the works to ensure that the target was met. However, given the plethora of challenges plaguing the nation's economy and the ICT industry in particular, commentators insist the comments of the NITDA DG remain impotent political statement meant to titillate gullible citizens.

To realise the mission, industry watchers want government to first sort out problems around insufficient funding, poor infrastructure, poverty, capacity issues and insecurity, among others.

Many are of the opinion that a nation with high illiteracy level, battling protracted insurgency could

not be promising 95 per cent digital literacy in less than seven years from now, if the aforementioned headwinds were not addressed.

According to Rogba Adeoye, executive secretary, Information Technology Systems and Security Professionals (ITSSP) and past chairman of Nigeria Computer Society, Lagos chapter, the road to achieving 95 per cent digital literacy by 2030 is rough and needs to be paved for the programme to drive smoothly. He also noted that certain foundational issues need to be addressed.

“Having said that, you must look at structures for those targets. In IT, everything is achievable, provided you have your programme well laid out, monitored and followed through. If this is done, we can achieve it, but we must realise that 95 per cent are we talking about in Nigeria? Is it total population or is it the active population? Because we have the infants and we have the aged. And the active population is between 50 years old and 60 years

old. Some segment of this population are already digitally literate. Of recent, every student in Nigeria in higher institution pass through JAMB CBT, that means they acquire digital literacy before they can do that. If we are targeting the rest how can we achieve that? Infact, it can only be driven by effort and pronounced by government”,

In his submission, the president, Nigeria Computer Society, Prof. Adesina Simon Sodiya, said the target was achievable, if there is sincerity of purpose and hard work. “We have to have to develop a working strategy for us to realise it. You know the level of digital literacy in Nigeria has continued to improve over the years. More and more individuals, more and more organisations are showing interest in developing themselves in the digital ecosystem. The answer to whether achieving a 95 per cent digital literacy by 2030 is not yes or no but I am very sure that it is possible and of course, we have also seen some government agencies that are also coming up with

programmes that will also help us to leapfrog our development in the area of digital literacy in Nigeria.

“At the level of the Nigerian Computer Society, we are also coming up with a number of programmes. We are also coming up with a number of programmes to deepen digital penetration at primary and secondary school level. In the digital ecosystem, we have those we call the digital migrants and the digital natives. Those that were born probably in the last 10 years, as they are growing now, their level of digital literacy is higher than those of us that were born long time ago.

“So, what we are saying is that we are not going to have much problem with the people that were born in the last 10 years. We should rather concentrate more on the older people because it is so difficult for some of them to even adapt or get used to the digital technologies we are talking about.

“Many of them, what they have been doing in the past years, they

want to continue with it. Our marketwomen, how do you convince them to start advertising their businesses online, to start using digital technologies to manage their products? Some of them up till now when you want to pay them electronically for their products, they decline. They will say they want cash. We still have a lot of work to do and of course, it is something that the local government, the state government, corporate organisations, stakeholders and corporate professional bodies like us need to push.”

NCS SEEKS COLLABORATION WITH THE CENTRAL BANK OF NIGERIA, CBN ON SMART, SECURE, AND SUSTAINABLE NATION

The most populous IT professional association in the country and Africa at large, Nigeria Computer Society seeks collaboration with the Central Bank of Nigeria, CBN on Smart, Secure and Sustainable Nation. The president of the society, Prof. Adesina Simon Sodiya, FNCS who was ably represented by the Chairman, Conference Committee, Mr. Ayodeji Rex Abitogun, FNCS made this call when he paid a courtesy visit to the Governor of the Central Bank of Nigeria, Mr. Godwin Emefiele who was represented by the Deputy Governor Operations Directorate, Mr. Folashodun Adebisi Shonubi at its corporate headquarters Abuja. The Chairman Conferences was in the company of the NCS North Central Zonal Coordinator, Mr. Mohammed Bayo Onimode, the Executive Secretary, Mr. Iyiola Ayoola, FNCS, Mrs. Muibat Aribidesi, FNCS, Mrs. Iyabode Adeleke, FNCS, Hajia Hauwa Yahaya,

MNCS and Mr. Sunday Songo, the Liaison Officer.

Other requests made at the visit

were;

1) Making NCS membership a requisition for all IT professionals in the Banking sector of the Nation.

2) Partnership in all IT related projects

3) Participate in the forthcoming National Information Technology Merit Award, NITMA 2022 and

4) Mr. Rex invited the Deputy Governor, Operations to be a guest at the upcoming conference holding in August at Ogun State to intimate and interact with the professionals further on the gains of eNaira

Responding, the Deputy Governor appreciated the leadership of the NCS for finding it fit to visit the Central Bank of Nigeria however,

with dismay. Mr Shonubi advised the NCS to go back to the drawing board and rediscover their focus, relevance and as well add value to stand out amongst upcoming IT advocacy groups in the country. He pledged to relay all requests made to the Governor with a positive remark, he assured that all would be replied accordingly.

Also speaking at the call was the Executive Secretary, Mr. Iyiola Ayoola who recalled with nostalgia Mr. Shonubi's impact in the IT space and the banking sector. He further strengthens the invitation made to him for a speaker role at the conference in Ogun state.

NCS VISITED FOOD CROWDY

The President of Nigeria Computer Society, Prof Adesina Sodiya recently led the NCS delegation on a courtesy visit to Food Crowdy. The courtesy visit was meant to discover possible areas of collaboration, between Crowdy Food and NCS. Professor Adesina Sodiya of NCS thanked the company's management for their reception and

support to NCS. He informed them that one of the reasons for visiting was to brief the Management; on the activities of NCS, and possible partnership areas.

The MD of Crowdy food, Mrs. Oladukun Fapohunda thanked the NCS delegation for choosing them for a courtesy call; and promised to collaborate with NCS in building a viable IT sector in Nigeria.

The Visit was greeted with a facility tour of Crowdy food production center. In the President led the delegation, are the staff of NCS, in the person of Mrs. Atinuke Shodipo, and Mrs. Halimat Tijani,

TECH-INNOVATION DEVELOPMENT PROGRAMME

The Nigeria Computer Society - NCS has introduced Tech-Innovation Development Programme (TIDP) to provide necessary supports for developing innovative ideas in Information Technology.

To participate, kindly visit:

www.techinnovation.ncs.org.ng

About TIDP

The Tech-Innovation Development programme is to provide support for the development of innovative solutions, tools and technologies for enhancing the growth of the nation. The fund for the Tech-Innovation Development Programme shall be from the Tech-Innovation Development Fund.

Vision: To transform Nigeria through digital innovations

Mission: To develop and sustain technological innovations for the

acceleration of creative entrepreneurship and rapid economic growth of the nation.

THEMATIC AREAS

The areas of interest in the Tech-Innovation Development Programme are:

- Cybersecurity/ critical Infrastructure protection
- Financial Technologies (FinTech)
- Electoral systems
- E-government/ Digital Economy
- Smart cities
- Intelligent systems and

robotics

- Teleworking & E-platforms
- Industry 5.0
- Digital games

Participation Guidelines:

1. NCS membership is a pre-requisite for participation. Kindly visit www.ncs-portal.org.ng/index.aspx if you are not a member
2. Kindly note that individual participation is not allowed. Only team participation is allowed
3. A team must not be more than three people
4. Female participation is encouraged.

5. Applications are only invited from young innovators, tech start-ups, students and young academic researchers

6. An applicant must be a graduate or current student in any tertiary institution

7. Must demonstrate strong ability to development tech-based systems

8. Applicants should be below 35 years of age

9. Applications can only be submitted online

Registration deadline: March 25, 2022

www.ncs.org.ng

NCS-JIM OVIA SCHOLARSHIP

Call For Entry

Application is now open to interested and qualified candidates for the 2022 NCS-Jim Ovia Scholarship Fund organized by the Nigeria Computer Society (NCS).

Objectives of the Scholarship:

- Support and promote Computing/ Information Technology Education in Nigeria
- Assist in developing the needed manpower for the technological advancement of the nation

Who can Apply:

Undergraduate and Post Graduate students of Computer Science, Information Technology or related courses in any recognized university.

Category of Award:

Bsc., MSc and PhD

Application Deadline:

May 31, 2022

How to Apply:

Complete the application online at www.ncs.org.ng

Enquiries: National Secretariat

THE INTERNATIONAL JOURNALS OF THE NIGERIA COMPUTER SOCIETY (NCS)

Submission of original research Manuscripts that have not been submitted for publication in another journal or already copyrighted are invited for publication in the following Nigeria Computer Society (NCS) Journals:

- 1. Journal of Computer Science and Its Applications (JCSA):** The Journal covers the fields of Computer Science, Information and Communication Technologies.
- 2. Journal of Information Security, Privacy and Digital Forensics (JISPDF):** The Journal accept articles from areas of Cyber and Information Security, Privacy, and Digital Forensics.

Journal Editions: June & December Every Year

Submission of Manuscript:

Manuscripts should be written in English, double-spaced and single-sided, and should be numbered beginning with the title page. The first page of an article should contain the following:

1. Title of the paper (no more than 45 characters)
2. The name(s) of author(s) corresponding author should be indicated
3. Affiliation and address(es) of the author(s) including e-mail address(es).

An abstract not exceeding 200 words (formulae are not counted) should follow the title page on a separate sheet.

Important Dates for Authors:

June Edition: March 31, 2022

December Edition: October 31, 2022

Publication Dates:

June Edition: June 30, 2022

December Edition: December 31, 2022

How to Submit:

All manuscripts should be submitted electronically as follows:

Journal of Computer Science and Its Applications: jcsa@ncs.org.ng

Journal of Information Security, Privacy and Digital Forensics: jispdf@ncs.org.ng

NCS INTERNATIONAL CONFERENCE 2022

The theme for the conference is Smart, Secure, and Sustainable Nation (S3N 2022)

Sub-themes:

The thematic areas for this conference fall into three main areas: Smart, Secure, and Sustainable Nation. Authors are encouraged to align their submissions accordingly.

1. Smart Nation- Focus will be on design, regulatory, security, and auditing issues. Key thematic areas are

- Intelligent Cities- Design and Regulatory Framework
- e-Governance And Policy Framework
- e-Health and Smart Healthcare
- Precision and Intelligence Agriculture
- Regulation and Digital Consumer Privacy
- Smart Security and Surveillance System
- Software Systems and Architectures
- Applications and Tools
- Big Data Analytics and Applications
- Artificial Intelligence and Applications
- Computer Networks, Mobility and Pervasive Systems

2. Secure Nation - The focus here will be on the deployment of ICT solutions that handle issues relating to system security

- Critical National Infrastructure
- Intelligent and Decision Support Systems
- Cyber Security
- Call Tracking & Counter-Terrorism
- Computer Forensics & Information Auditing
- IT Governance and Ethics (Suggestion)
- Virus/Antivirus
- 5g Technology and Industrial Revolution

STAY SAFE: PROTECT YOURSELF AND THOSE AROUND YOU

THE COVID-19: WE WANT YOU TO STAY ALIVE

Dear professional colleagues, Nigeria Computer Society (NCS) as a Professional body in Nigeria are not oblivious of the pandemic ravaging the world called 'COVID-19.

We care for our members. Therefore, we wish to inform our precious and distinguished members of the need to pay utter attention to basic preventive measures against COVID-19.

Stay aware of the latest information on the COVID-19 outbreak, available on the WHO website and through your national and local public health authority. Most people who become infected experience mild illness and recover, but it can be more severe for others.

Take care of your health and protect others by:

- a. Constantly getting basic preventive measures and current updates from WHO (<https://www.who.int/emergencies/diseases/novel-coronavirus-2019/advice-for-public>). Kindly always follow the guidelines as outlined
- b. Paying attention to national and international information on COVID-19
- c. Being an health ambassador by helping to sensitise the public on preventive measures against the virus
- d. Ensuring you always take advice from healthcare professionals
- e. Taking general measures to improve your health conditions

Nigeria Computer Society (NCS) wants our members to always be strong and healthy. Together we shall continue to build strong and virile IT Profession.

Stay Alive!!!

International Conference on Smart, Secure and Sustainable Nation (S3N 2022) Call for Papers

2nd-4th August 2022 **June 12 Cultural Centre, Abeokuta, Ogun State**

Preamble

The emergence of connected cities and data-driven nations is making planning and decision-making easier at the global level. Different studies have ranked Africa low in adopting technology to build a safe, secure, and sustainable economy. At the heart of the technology driving innovation is data and citizens engagement. In transforming our nation to meet future demand, we must use technology to create a more sustainable and liveable present and secure future for our citizens. We must change our approach and challenge the status quo. Our quest for innovation leveraging research and development must increase. We must develop effective strategies to achieve a **Smart, Secure, and Sustainable Nation**.

The government, the citizens, and the business environment must invest in relevant technologies to compete in the global space. This approach requires the right team with new mindsets and skills. The 2022 International conference on "Smart, Secure, and Sustainable Nation (S3N'22)" will bring together policymakers within the government, business leaders, members of academia, professionals, and practitioners to deliberate on broad social, economic, and technology trends relevant to the development and sustainability of our nation.

Scopes and Topics

We, therefore, welcome authors and speakers to be part of the S3N'22 - The 2022 International Conference on Smart, Secure and Sustainable Nation, scheduled to hold from the 2nd to 4th of August 2022 at the June 12 Cultural Centre, Kuto, Abeokuta, Ogun State Nigeria. Authors can now submit articles that present research results, innovative projects, literature surveys, and industrial experiences that describe the significant strategy in developing the next-generation digital economy relating to the theme and sub-themes.

Sub Themes

The thematic areas for this conference fall into three main areas: **Smart, Secure, and Sustainable Nation**. Authors are encouraged to align their submissions accordingly.

1. Smart Nation- Focus will be on design, regulatory, security, and auditing issues.

Key thematic areas are

- Intelligent Cities- Design and Regulatory Framework
- e-Governance And Policy Framework
- e-Health and Smart Healthcare
- Precision and Intelligence Agriculture
- Regulation and Digital Consumer Privacy
- Smart Security and Surveillance System
- Software Systems and Architectures
- Applications and Tools
- Big Data Analytics and Applications
- Artificial Intelligence and Applications
- Computer Networks, Mobility and Pervasive Systems

2. Secure Nation - The focus here will be on the deployment of ICT solutions that handle issues relating to system security

- Critical National Infrastructure
- Intelligent and Decision Support Systems
- Cyber Security
- Call Tracking & Counter-Terrorism
- Computer Forensics & Information Auditing
- IT Governance and Ethics (Suggestion)
- Virus/Antivirus
- 5G Technology and industrial revolution

3. Sustainable Nation - the focus here is on digital inclusiveness

- Citizen Engagement: Security, Privacy, and Trust
- Digital Economy and Technopreneur
- ICT in Education- The Future of Learning
- Future of Work: Ergonomics and Smart Culture
- Innovative Skills, Youth Innovation and Sustainable Productivity
- ICT Regulation
- Media, Applied Technology, and Communication
- Social Computing/Interactions

Instructions to Authors:

- Authors are to submit full papers in English on original work intended for presentation at the conference. Only full papers submitted through [easychair](https://easychair.org/cfp/S3N2022) will be considered. Please use the link <https://easychair.org/cfp/S3N2022> to submit your paper.
- Paper submission must include full details of authors (names, addresses, and e-mails) and their affiliations.
- All Papers should not be more than 4,000 words, single-spaced in Times New Roman with 12 point font size using the American Psychological Association (APA) referencing style 7th Edition
- Where there are multiple authors, at least one author must pre-register to qualify for inclusion of the paper in conference proceedings.
- Selected papers may be considered for publication in International Journals, including the Journal of Computer Science and Its Applications; and the International Journal of Information Security, Privacy and Digital forensics published biannually by Nigeria Computer Society.
- All approved papers for presentation will be in NCS supported PowerPoint (.ppt) presentation format which will be communicated to Authors of approved papers.
- All submitted papers will be peer-reviewed by qualified reviewers. The authors are requested to submit their original and unpublished work in full not later than March 31, 2022
- Authors are advised to employ the IMRaD (Introduction, Methodology, Results and Discussion) format for their papers.
- Authors are also advised to check the plagiarism status of their papers before submission. Note that the maximum acceptable similarity index for the papers in this Conference is 15%.

All submitted papers must be previously unpublished and may not be considered for review or publication somewhere else during the period at which such articles are undergoing NCS review.

All accepted and registered papers will be published in the Proceedings by Springer in a book of the Lecture Notes in Networks and Systems, will be submitted for indexing by SCOPUS, WoS, Google Scholar, SCImago, among others, and will be available in the

PROFESSIONAL FELLOWSHIP UPGRADE APPLICATION

REQUIREMENTS

The Nigeria Computer Society Fellowship award is granted to interested members with proven and verifiable track records; and known to be an authority in the field of computing with significant contributions to the growth of the profession over the years.

Requirements – (A):

1. Be at least thirty years of age and has not less than ten years relevant professional working experience, at least five of which must have been in position of senior management responsibility.
2. Has professional activities and achievements justified and accepted as an authority in the profession.
3. Be considered by the Society to be fit and proper person to be so recognized.
4. Holds a certificate of an examination or examinations recognized by the society for the membership grade.
5. Has his/her application sponsored by two fellows, who are financially up-to-date with NCS, College of Fellows and CPN.

6. Applicant for Fellowship grade must have been a Member for at least 10 (ten) years, of which at least 2 (two) years out of 3(three) years (preceding the date of application), of regular attendance/participation in the activities of the Society can be verified.
7. Must have been registered by CPN for at least 3 years

Requirements – (B):

1. First degree (HND or B.Sc.) in Computer Science/ Information Technology/any related discipline OR Computer Professional Examination (CPE Stage II)
2. Practicing IT for a minimum of 20 years
3. Must have registered with NCS and CPN or concurrently registering with the Fellowship application.
4. Must pay special admission fee to be determined by the Council.
5. Must also fulfil (2), (3), (4), (5) in Requirements – (A) above

Visit www.ncs.org.ng/fellowship/ to apply

Artificial Intelligence Summit

www.aisummit.ncs.org.ng

About the Summit

Artificial intelligence, which involves the development of digital systems and technologies that mimic human capabilities and capacities in problem-solving and decision-making, has become a prime technology today. Artificial intelligence is currently presenting tremendous opportunities, leading to breakthroughs in all spheres of live. Artificial intelligence (AI) is transforming every segment of global economy.

Summit Objectives

- ✦ A platform for gathering of Big-Tech, Start-ups, Investors and relevant organisations
- ✦ Opportunity to leverage on global advances in AI for National development
- ✦ Opportunity to Network with International Organisations
- ✦ A platform for increasing AI adoption in public and private organisations
- ✦ Development of talents in AI
- ✦ Showcasing indigenous skills in AI
- ✦ Promote AI education and research
- ✦ Explore opportunities in AI
- ✦ Exchange of innovative ideas in AI technologies

Call for Experts

- ✦ Technical Resource Persons
- ✦ Workshop Organisers
- ✦ Demonstrators

Interested individuals or groups can contact the Secretariat

Summit Tracks

- ✦ Technical Sessions
- ✦ AI Workshops
- ✦ Exhibitions and Demonstrations
- ✦ AI Challenge
- ✦ Discussion forum on AI4D

AI Challenge

- ✦ Present and Demonstrate AI Driven Applications and Technologies
- ✦ For the Youth, Students in Tertiary Institutions, Young Innovators and Startups
- ✦ Selected Teams will be fully sponsored to the summit.
- ✦ Attractive Prizes
- ✦ Register to participate

Participating Fees

- ✦ Member: N10,000
- ✦ Non-Member: N20,000
- ✦ Student: N5,000
- ✦ Virtual: N15,000
- ✦ **Note:** Registration at the venue attracts additional 50% charges
